1. Use 'Magic Water'.

2. Each enemy has own specialty. Depending on the enemy, 'Mystic Spells' and the 'Hiryu-no-ken' will have the different effects. Find out the characteristics of each enemy and devise a strategy.

## THE BATTLE MODE—SHINGAN SYSTEM

Culture Brain created the 'Shingan System' which is implemented in the 'Defense' for realistic fighting action.

We'll show you the difference from the conventional system. After the strict practice, Flying Warriors can open the 'Mind's Eye' and see the weakness 'RED Star' of enemy as well as their own.

**Example 1: Defense**  
The 'RED Star' appears on your upper body, quickly defend your upper body.

**Example 2: A chance to attack**  
The 'REDstar' appears on the enemy's middle body. Attack the enemy's middle body.

As you can see from the examples, both the attack and defense are performed in three main parts of the body: upper, middle, and lower.

Select the position you wish to attack or defend by pressing the control pad.

When the 'RED star' shows up on your body, you should defend it. If you try to attack the enemy, he'll counter. You should try to attack only when the star appears on enemy's body. If you defend properly, your 'K.O. Gauge' will increase, thereby allowing you use the supreme offense skill, the 'Hiryu-no-Ken'.

## ●MORE 'STARS'

The 'Red star' is not only the 'star' the Flying Warriors can see. There are three more marks.

### ●'THE BLUE' STAR

Indicates that you can inflict more damage to the enemy than the 'Red Star'. However, the appearance of this mark is different depending on your enemy.

### ●'HIKOU' STAR'

Is the ultimate mark which means you have the chance to defeat the enemy with one blow. It is difficult to get this mark.

### ●'RUSH MARK'

Indicates a chance to attack continuously without any interruption. When you get this mark, press the **A** or **B** button to throw various skills automatically.

## **WARNING**

### **DO NOT USE WITH FRONT OR REAR PROJECTION TV**

Do not use a front or rear projection television with your Nintendo Entertainment System® ("NES") and NES games. Your projection television screen may be permanently damaged if video games with stationary scenes or patterns are played on your projection television. Similar damage may occur if you place a video game on hold or pause. If you use your projection television with NES games, Nintendo will not be liable for any damage. This situation is not caused by a defect in the NES or NES games; other fixed or repetitive images may cause similar damage to a projection television. Please contact your TV manufacturer for further information.
